

# Now Hiring: Water Resources Specialist

The Mississippi Watershed Management Organization (MWMO) is seeking a Water Resources Specialist to join the team.

The MWMO is a joint-powers local government unit formed by the cities of Minneapolis, Fridley, Lauderdale, St. Anthony Village, St. Paul, Columbia Heights & Hilltop, and the Minneapolis Parks & Recreation Board, and one of approximately three dozen watershed organizations in the Twin Cities metropolitan area.

## ABOUT THE POSITION

The Water Resources Specialist will provide ongoing evaluation of data collection, data analysis, reporting and processes for continuous improvement to water resource monitoring efforts. Will act as the primary contact for initiatives related to NPDES, Total Maximum Daily Load/Watershed Restoration and Protection studies, and serve as the liaison with federal and state agencies associated with these efforts.

This individual is responsible for project and contract administration, data organization, data analysis and reporting related to watershed assessment and monitoring data collection. Will assist with field work for monitoring, and with installation, operation and maintenance a variety of manual and automatic water monitoring and sampling equipment throughout the watershed.

The position actively participates as a member of the MWMO staff team and performs special projects and other responsibilities as assigned. The complete position description can be found by visiting: <http://mwm.org/about/employment>.

## ABOUT THE CANDIDATE

The successful candidate for the position possesses a Bachelor's degree in the field of Biology, Chemistry, Limnology, Water Resources, Natural Resources, Engineering, Earth Science, Environmental Science or related field, and a minimum of five (5) years professional experience. Or a Master's degree and a minimum of three (3) years of professional experience.

## SKILLS THE CANDIDATE SHOULD DISPLAY OR BE READY TO DEVELOP

- Excellent organizational, interpersonal, customer service, verbal, and written communication skills
- Organize and prioritize workloads, work under pressure, and adapt to meet deadlines
- Work independently and make decisions within the scope of authority
- Working knowledge of the various software programs used in the department assigned

### COMPENSATION

The salary range for the position is \$47,400 - \$72,800 depending on experience and qualifications, with a competitive benefits package.

### SELECTION PROCESS

**Closing Date:**  
July 21, 2019

**Review of Applications:**  
Week of July 22, 2019

**Interviews of Candidates:**  
Week of July 29, 2019

**Anticipated Start Date:**  
August, 2019

### Interview Location:

MWMO  
2522 Marshall Street NE  
Minneapolis, MN 55418

### HOW TO APPLY

Application forms, instructions and full position description can be found at:  
<http://mwmo.org/about/employment/>

*Please note that the applications are accepted via electronic mail to [contacts@mwmo.org](mailto:contacts@mwmo.org) or via U.S. Mail to the address listed above.*

### ABOUT THE MWMO

The Mississippi Watershed Management Organization works to protect and improve water quality, habitat and natural resources in an urban watershed that drains directly into the Mississippi River.

The MWMO partners with our member communities to invest in green infrastructure that captures, cleans and reuses stormwater. Our team monitors and tracks water quality in the watershed and conducts education and outreach to promote active environmental stewardship among residents.

### STORMWATER PARK AND LEARNING CENTER

The MWMO's Stormwater Park and Learning Center offers visitors the experience of a living laboratory of green infrastructure along the Mississippi River.

Our site provides community meeting space and a variety of educational opportunities and exhibits to promote good stewardship of our water resources and habitat.

Our 11,000-square-foot facility is heated and cooled by geothermal energy, and is powered in part by an array of solar photovoltaic panels. It was designed to consume just one-third of the energy of a typical, comparably sized commercial building.

In addition to providing public meeting spaces, the Stormwater Park and Learning Center houses the MWMO's staff offices, equipment and laboratory space.
